DETAILED ACTION

Claim Objections

1. Claims 1-37 are objected to because of the following informalities: some grammatical and idiomatic errors are noted throughout the claims. For example claims 1,9,22, and 34, part b respectively; claim 3, line 1, "act" should read as "step"; claim 5, line 4, note the recitation "two and three"; claim 36, part (i) note the term "accepting". Please review all the claims for similar errors. Appropriate correction is required.

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 1-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1,9, 22, and 34, what is being suggested by the part b of the claim is unclear. For example, how many signals are selected if the source signals are two(note the recitation "selected source signals").

The variable "n" is not defined throughout the claims (note claims 3,7-8,11,16,20-21, 24, 26-27,29,32-33, and 36).

Regarding claims 14,28, and 34, what is being suggested by part b(claim 14), part a(ii), and parts g and o(claim 34) is unclear because a splitter doesn't generate mixed signals.

Application/Control Number: 09/667,419

Art Unit: 2633

As to claim 15, the claim recites converting the received transmitted signal to an electrical signal. What type of signal is being converted to an electrical signal. Note that claims 14 and do not specify received or transmitted optical signal.

Allowable Subject Matter

- 4. Claims 1-37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
- 5. The following is a statement of reasons for the indication of allowable subject matter: The art of record taken separately or in combination fail to teach the limitations of the claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Rudish et al., is cited for its teachings heterodyning(see Fig. 2).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kinfe-Michael Negash whose telephone number is (703)305-4932. The examiner can normally be reached on 8:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jason Chan can be reached on (703)305-4729. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
